

Celebrating Women in Tech at uberall

This year's International Women's Day holds special significance for all of us at Uberall.

#IWD2019

On Friday, March 8, 2019, International Women's Day will be celebrated as a

PUBLIC HOLIDAY IN BERLIN:

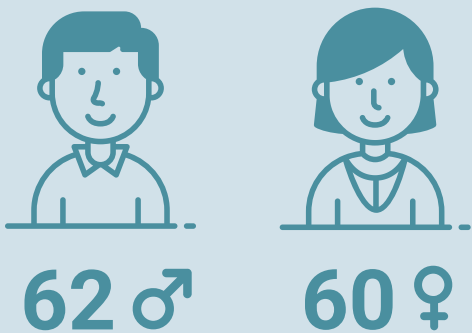

the first and only German state to recognize it as a public holiday.

All Uberall team members based in Berlin will celebrate this milestone in recognizing gender equality in the workplace.

We are committed to giving women equal opportunities in tech, sales and leadership roles.

While this is not an easy task or something we'll achieve overnight, we are making strides.

From March 2018 to 2019 we have hired 62 men and 60 women.

Women make up **38%** of our global workforce.

While we're proud of this number, we know we can increase this number and the number of women holding leadership roles.
